

José Angel Garces

Web Developer

✉ joseangelgarces123@gmail.com 📞 +584246320495 04122949287

Hi! I'm Jose Angel, a full-stack developer with a wide range of skills. From dynamic user interfaces with React to efficient APIs with Laravel, my experience in JavaScript and PHP allows me to offer complete solutions.

Experience

Programmer

2023 March - present

In my work as a programmer at VIT, I work in different branches of programming. From web development to python scripting

Frontend Developer

2024 november - december

I was in a work simulation, where we worked as a whole team. We developed an application to be able to have online medical consultations.

Education

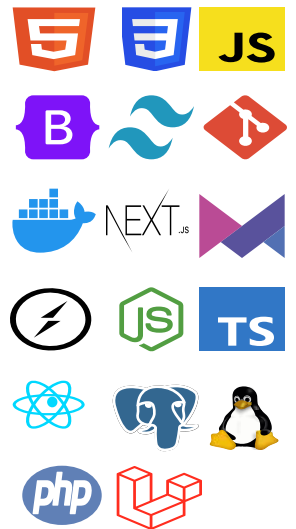

Systems engineering

2018-2023-july

Throughout my career I learned to solve many problems within the programming area. Each challenge was a new learning experience!
